GOGREEN CONFIRMATION 2023

Erenpack B.V.

is an official customer of the DHL GoGreen Services and actively contributes to climate protection.

Deutsche Post DHL Group will offset the greenhouse gas emissions generated by transportation and logistics through climate protection projects.

Further information on the GoGreen climate protection projects can be found at: **dpdhl.com/gogreen-projects**

Andreas Mündel

Senior Vice President
Innovation & Strategy

This document confirms participation in the GoGreen Climate Neutral Service. The greenhouse gas emissions generated by transportation and logistics will be offset via expenditures on climate protection projects in accordance with international standards. The actual emissions offset will be verified by SGS (Société Générale de Surveillance) every year and approved by means of an official certificate.
